

Stash Tea MerryMint Organic Green Tea

This Stash MerryMint Organic Green Tea is so fresh and potent, I LOVE it! The two types of mint – peppermint and spearmint, combined with ginger root, lemongrass and wintergreen oil make this tea so minty flavorful – you will love it! This is the fifth item in our MARY's secret ingredients 2016 winter subscription box.

Of course you can enjoy it plain or with just a little bit of honey, but I opted to make this truly American Holiday minty and lemony cocktail.

Brew the tea ahead of time, combine with the honey and then let it cool. I guarantee this will be your favorite drink this season. It's not too strong, yet lovely in a straight up glass. This is what is in fashion now – interesting drinks that are not too alcoholic.
